## Act 1

Ben announces there will be one more contestant who is a major influencer, and they will need to network with him and treat him right. "Tank," (Fatty) is brought in. He gets off on the wrong foot with Kawan, and shows him his workout technique to put him in his place, but ends up dropping his pants on the treadmill.

*Confessional: Binx says she appreciates Fatty's streaming advice.*

Luke introduces himself as Fatty finishes moving into the penthouse as "Luke, like the Skywalker." G calls the Boys plus fatty into the penthouse and tells them that yesterday was fucked up and they can't let the whole show be run by girls, so there won't be any more voting.

Vance films girls in Bedroom 3 talking about Burt, but before long TTS begins chiming in and is noticeably unfiltered, calling the girls, "retarded."

*Confessional: Ben tells Lily that computer is a big load o' shit, but everyone in this house is so fucking stupid they just believe what production tells them. Lily laughs.*

Luke, Shelby, and Kevin sequester themselves in the Lounge from the rest of the cast, who are avoiding them by hanging out in the dining room. TTS haunts the Brandon-defenders in the dining room ("Don't touch me Brandon!") and sends love and support to Luke ("We were in the cheese room")

*Confessional: Luke, "I'm quite humbled! Thank you very much!"*

Luke is given a pile of gifts and Shelby asks him, "is this being livestreamed?" In the dining room one of the girls reads a piece of paper that says "Fishtank live admin panel." Kawam and Tony discuss the show being live in the Loft. Payton is put in handcuffs with Burt.

*Confessional: TTS tells Payton and Burt that the reason they are being punished because they both supported Brandon, and the only way out of it is to ask Luke for help. They rationalize how they treated Brandon and cannot understand what the audience sees in Luke but agree to hear him out.*

At the bar, Luke accuses Burt of voting for him during the elimination. TTS reminds Luke that Payton has been calling him a psychopath for the last month. They agree to call it even, saying there isn't much room for Payton or Burt to reject his help, anyway.

*Gianna leaves unceremoniously. Ben and G casually spoil the show for her and she is bemused. Binx is called in next, and G tells her she has two weeks to prove she isn't just "some thot." Breezy melts down and is brought into the confessional with G, where she cries that she doesn't feel supported and wants bottled water and crab legs and seafood boil and caviar and creme fraiche and chives.*

Tony gets into some friendly hijinks with the girls, stealing bags of food and chasing back and forth in the house. Binx gets captured and sprayed down at the kitchen sink. When Tony tries to break from working out in the gym, Burt chases him down and screams at him to stop his nonsense. He demands to box Tony but gets beat the fuck out of. Burt leaves the den to try and cool off but gets harassed by the Red Shark while screaming about being sorry about Brandon. Binx throws eggs at Burt as she throws him under the bus for supporting a groomer. She forces Burt to pour yogurt on his head to get her forgiveness for grooming Lactasia, and he starts to cry. TTS sends Burt back downstairs and he throws a bottle of Prego towards Binx, nearly hitting her.

In the Lounge, Breezy says watching Burt freak out was triggering.

*Confessional: Breezy says she's thinking about leaving because the show is too much for her and says she thinks production stole her panties.*

G gives Breezy the boot on the spot.

Luke winds down in the locker room, and a TTS welcomes him to the cheese room again.

## Act 2

Burt approaches Payton in the locker room and says that he was downstairs talking to production after his freakout and saw her painting of him and doesn't remember it. Luke and Payton ask him if he's fucking around and he says he doesn't remember anything before Famous House. They take Burt into the penthouse and Luke convinces Burt to run around screaming "these white people tryna kill me!"

Alex Stein comes roaring into the house, introducing himself as Alex Diamond, the major investor of the show, who is pissed that they don't have any drama going.

*Confessional: Alex screams "These retards are going to fuck up my money." Confessional: Kawam pulls Alex in and gushes, "You're Alex Primestein!" and Alex shushes him and chases him out of the room.*

Alex runs a Hot Dog eating competition, which Tony wins.

*Confessional: Ben introduces him to Tony and says he was just making out with a girl. (Show that, B1). Alex congratulates him and asks him to go as far as he can with her.*

Lily asks Fatty if Tony is faithful. Fatty says, probably not.

*Confessional: Lily accuses Tony of trying to manipulate her and he shuts her up by rolling her over.*

Luke takes Burt into the catwalk and reminds him that they are in famous house 2, and that he needs to get his memories back. He gets Burt to agree to cooperate with him to "escape groundhog day," and coaxes Burt into calling him "my nigga."

*Confessional: Burt is brought in to meet Alex Stein, and Alex questions him about his burting habits and his teeth.*

Alex Stein runs a Talent show.

*Confessional: Alex B says she doesn't have to listen to what Alex Stein says and could sue because he's been shouting at her. Jet takes her into a second confessional and questions why she would say that and settles on eliminating her.*

Shelby shows her talent during the show, when she puts a whole hotdog down her throat without gagging.

*Confessional: Shelby finds a red gem. Vance informs her it's an "immunity token."*

Star wins the show by singing "Killing me Softly" okayishly.

## Act 3

At night, Lily gets into Binx's bunk, and suspiciously sexual sounds are heard. TTS requests one of the fish investigate, and Luke accepts. He finds Binx and Payton in Bedroom 2, where Binx is crying saying that she doesn't know what the audience wants from her and that Payton hasn't gone through anything that she or Burt has. Luke warns her that he's taking the case very seriously. Kawan tries to enter and Luke walks him out of the room by the throat.

*Confessional: Luke says it smells like a damn harbor in the house but is worried to press this further right now, or he could get in trouble again.*

Passing by Kawam to go to the flat, Luke shoves him again.

*Confessional: Kawam says he wants to box Luke because the shoving is getting out of hand.*

In the Yard, Luke brags that it's probably about time that Kawan fight someone stronger than him. G watches over as Kawam and Luke box. Because they both have actual muscles for once, the fight is actually worth watching on a technical level. Kawam eventually surrenders and

they hug it out. Luke spooks Binx with his bloody nose and they find some common ground as they admit they are both good competitors in their own ways.

Red and White sharks chase the Famous House stars around while they attempt to do a typical Top Model style activity with Alex Stein. At the same time, Jobe (White shark) is sent upstairs, and begins to destroy everyone's belongings, including throwing Binx's suitcase over the railing of the catwalk. The cast break from the activity and go upstairs to discover their luggage strewn everywhere. Luke notes Burt's TRT needles are sitting out on the ground, and Burt claims them. Alissa shows Kawam that she has found a pair of scissors, and was planning on stabbing Alex's stuff with them. She cuts the wire on the Famous House sign. Maejok prepares the Fishtank sign over the fireplace instead.

*Confessional: Burt complains he doesn't know what's going on anymore. Ben gives him a toy in the faggiest voice possible.*
